It was a good day

My Jesus came through the desert

He walked on the sea, He died on the hill of mount Calvary

He went to the grave but checked out, on the third day

Oh it was a good day when the Lord came

It was a good day

Oh, but deep were my struggles and dark were its stains,

I had no friend as far as the eye could've seen

When You lifted me up from this pit that so devastated me

Oh it was a good day when the Lord came

It was a good, good day
